

OWNER MAINTENANCE RESOURCE

TRAILER MAINTENANCE LOG

Built to Outlast. Maintained to Perform.

Keep inspections, scheduled maintenance and service records together for the life of your trailer.

01 TRAILER IDENTIFICATION

TRAILER MODEL

YEAR

VIN / SERIAL NUMBER

OWNER / COMPANY

PURCHASE DATE

LICENSE PLATE

02 MAINTENANCE RHYTHM

EVERY TRIP

Complete the walkaround before towing.

5,000 KM / QUARTERLY

Inspect and service seasonal wear points.

15,000 KM / ANNUALLY

Complete deeper system inspections.

Use this log alongside the manuals for your specific trailer and components. Service sooner when operating conditions require it.

PRE-TRIP INSPECTION

INSPECTION DATE

MILEAGE / USAGE

INSPECTED BY

CHECK EACH ITEM BEFORE TOWING

☐**Tires**

Cold pressure per applicable guidance; cuts, bulges and uneven wear.

☐**Wheels & lug nuts**

Missing, loose, damaged or rusty hardware; torque when required.

☐**Hitch / coupler**

Fully seated, locked and pinned; correct engagement for hitch type.

☐**Safety chains / cables**

Attached correctly; cross bumper-pull chains where applicable; no dragging.

☐**Breakaway system**

Cable attached to tow vehicle, not chains; battery charged where equipped.

☐**Plug, lights & wiring**

Plug seated; brake, turn, hazard, marker and plate lights where equipped.

☐**Brakes**

Test trailer braking at low speed before road-speed travel.

☐**Load, doors & ramps**

Load secured/balanced; gates, doors, ramps, pins and latches locked.

NOTES & CORRECTIVE ACTIONS

If a safety issue is found, correct it before towing.

SCHEDULED MAINTENANCE

SERVICE DATE

MILEAGE / USAGE

5,000 KM / QUARTERLY

Seasonal tune-up

- ☐ Verify lug nut torque using applicable Lippert specifications.
- ☐ Lubricate equipped hinges, jacks, couplers, suspension points and zerks.
- ☐ Inspect brake function and wear; follow applicable brake setup/manual.
- ☐ Inspect enclosed wiring exits, clips, rubbing and insulation.
- ☐ Check ramps, doors, gates, pins, locks, hinges and jack operation.
- ☐ Check batteries, terminals, remote, charger and solar where equipped.
- ☐ Wash off contaminants; inspect finish, hardware and visible cracks.

15,000 KM / ANNUALLY

Deep inspection

- ☐ Inspect/clean/repack wheel bearings per applicable axle guide; replace removed-hub seals.
- ☐ Inspect brake linings, magnets, drums, wiring and adjustment operation.
- ☐ Inspect springs, hangers, shackles, bushings, equalizers, U-bolts and alignment.
- ☐ Inspect hydraulic ATF level, hoses, fittings, cylinders, pump and leaks if equipped.
- ☐ Inspect frame, sills, welds, deck/floor, ramps, tiedowns and rails.
- ☐ Inspect coating/corrosion; clean and touch up exposed chips.
